

This toy is a fun way to learn the 10 Commandments. Copy this page on 8.5 x 11" paper. If you don't have a color copier, the colored areas will print fine in a grey color.

Cut around the outside to make a large square.

Fold in half, printed sides together; then unfold and fold in half the other direction.

Next fold over the four triangle corners - there will be two numbered sections and a colored one in each folded piece and the four colored boxes will be together in the middle.

Now fold the triangle flaps with the numbers on them to the inside. Gently push it together like a flower and slip one finger into each "pocket".

Move your fingers back and forth to show different numbers. Try to remember the Commandment with that number. Lift the numbered flap to check your answer.
