Mathew 21:28-32

but later...

In the top box, which son is obeying his father? _____

In the bottom box, which son is obeying his father now? _____

Something to think about – Does God know what we are thinking? What is in our heart? Do you think son #2 really planned to help his father? It looks like neither one planned to help him at first, but son #1 decided later that he should help.

Was the father really happy with either son? What should each son do differently next time? Can you think of times you acted like one of them when asked to do a job?
